Indian Standard
**CODE OF BASIC REQUIREMENTS FOR
WATER SUPPLY, DRAINAGE AND SANITATION**

1 SCOPE

1.1 This standard lays down basic requirements for water supply, drainage and sanitation for residential, commercial, industrial and other types of buildings in urban areas including railway platforms, bus stations and terminals, seaports, airports and market yards.

1.2 This standard does not take into consideration the requirements of water for industrial plants and processes which have to be provided for separately depending upon individual requirements. It also does not take into account overcrowding, both casual and permanent, and is based on the assumption that the average size of a family is 5, and 9 m² floor area is occupied by not more than two persons. It does not provide for municipal water supply requirements such as for street cleaning, etc.

2 REFERENCES

2.1 The Indian standards listed below are necessary adjuncts to this standard

<i>IS No.</i>	<i>Title</i>
2064 : 1993	Code of practice for selection, installation and maintenance of sanitary appliances (<i>second revision</i>)
4878 : 1986	Byelaws for construction of cinema buildings (<i>first revision</i>)
9668 : 1990	Code of practice for provisions and maintenance for water supplies for fire fighting
